Management Report of Fund Performance

For the year ended December 31, 2020

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the DFA Global 80EQ-20FI Portfolio (the “Fund” or “Portfolio”). You can get a copy of the annual financial statements at your request, and at no cost, by calling Dimensional Fund Advisors Canada ULC (“Dimensional”) collect at 604-685-1633, by writing to Dimensional at 745 Thurlow Street, Suite 2110, Vancouver, BC, Canada, V6E 0C5 or by visiting Dimensional’s website at ca.dimensional.com or SEDAR at www.sedar.com.

Unitholders may also contact Dimensional using one of these methods to request a copy of the Fund’s interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

DFA Global 80EQ-20FI Portfolio

Management Report of Fund Performance

Investment Objective and Strategies

The DFA Global 80EQ-20FI Portfolio seeks total return consisting of long-term capital appreciation and income consistent with the Portfolio's asset allocation strategy. The Portfolio will generally invest its assets to achieve a target asset allocation of approximately 80% in equity securities and 20% in fixed income securities. The asset allocation may be achieved through investments in other mutual funds (the "Underlying Funds"), or directly in individual securities.

Risk

There were no material changes to the Portfolio over the course of the year affecting the overall risk exposure. The Portfolio will continue to be fully exposed to the risks affecting the Underlying Funds, which may behave differently from market benchmarks. For a complete description of the risks affecting the Underlying Funds, please refer to the Portfolio's simplified prospectus.

Results of Operations

To achieve its investment objective, the Portfolio invests in units of Underlying Funds managed and advised by Dimensional and our affiliates, that invest in global equity securities and fixed income securities. The investment strategy is process-driven, emphasizing broad diversification. As at December 31, 2020, the Underlying Funds collectively held approximately 10,560 equity securities and approximately 940 fixed income securities with exposure to 44 countries.

For the year ended December 31, 2020, total returns were 5.53% for the Class F units, 4.40% for the Class A units, 5.90% for the Class I units, and 9.22% for the Portfolio's blended benchmark (26% S&P/TSX Composite Index, 27% MSCI All Country World Index (net div.), 24% MSCI All Country World Index (hedged to CAD, net div.), 3% S&P Developed REIT Index (net div), 10% FTSE World Government Bond Index 1-5 Years (hedged to CAD), 10% Bloomberg Barclays Global Aggregate Bond Index (hedged to CAD)) (the "Benchmark").

Relative to the Benchmark, the underperformance of each class of the Portfolio's units was primarily due to the performance of the Portfolio's equity Underlying Funds versus the respective equity components of the Benchmark. The equity Underlying Funds' greater emphasis on low relative price (value) stocks detracted from relative performance, as value stocks underperformed high relative price (growth) stocks for the period.

The fixed income Underlying Funds held by the Portfolio collectively outperformed the fixed income component of the Benchmark for the period, contributing positively to the relative performance of each class of the Portfolio's units. Global developed market yield curves were positively sloped for intermediate- to long-term bonds, indicating positive expected term premiums for intermediate-term bonds. As a result, the fixed income Underlying Funds maintained a higher average relative weight in intermediate-term bonds, and a lower average relative weight in bonds in the one- to two-year maturity range. These weighting differences contributed positively to relative performance, as realized term premiums were positive

for the period. The fixed income Underlying Funds also maintained a higher average relative weight to corporate securities. The Fund was below its maximum weight in credit at the start of the period with credit spreads relatively narrow, indicating smaller expected credit premiums. Credit spreads widened early in the period to indicate larger expected credit premiums. As such, the Fund's allocation to corporate bonds was increased during the period. Realized credit premiums were positive for short- to intermediate-term bonds as corporate bonds generally outperformed government bonds. As a result, the Portfolio's higher average relative weight in intermediate corporate bonds, and lower average relative weight in shorter-term government bonds, contributed positively to relative performance. The fixed income Underlying Funds' lower average relative weight in bonds denominated in Japanese yen also contributed positively to relative performance.

Dimensional believes that, in liquid and competitive markets, prices quickly incorporate information and reflect expectations about a company's future risks and opportunities. In 2020, the impact of the novel coronavirus (or COVID-19) was reflected in the returns and volatility of securities issued by many companies, sectors, and countries.

Returns for the Benchmark are not diminished by management and administrative expenses associated with managing a portfolio of securities.

Net returns of Class A units were diminished by a trailer fee payable to securities dealers. Dealers generally pay a portion of these fees to investment professionals for services they provide to their clients.

Recent Developments

The continued worldwide spread of COVID-19 and its impact on international business operations, supply chains, travel, commodity prices, consumer confidence and business forecasts, and the associated impact on domestic and international equity markets and fixed income yields, is expected to have a material impact on all equity and fixed income portfolios in 2021, and potentially beyond. Dimensional will continue to monitor developments in equity and fixed income markets generally, and in connection with the Portfolio in particular.

Selwyn Notelovitz replaced Christopher S. Crossan as Chief Compliance Officer of Dimensional and Dimensional Fund Advisors LP ("Dimensional U.S."), effective July 30, 2020.

Edward P. Lazear no longer serves as a member of the Portfolio's Independent Review Committee ("IRC") effective November 23, 2020.

Related-Party Transactions

Dimensional is the manager, trustee, and principal portfolio advisor of the Portfolio. As manager, Dimensional is responsible for the overall management and administration of the Portfolio. As trustee, Dimensional holds legal title to the Portfolio's investments in trust for the Portfolio's unitholders. For its services, Dimensional receives management fees that are calculated as a percentage of the average Net Asset Value of the Portfolio. These fees are calculated daily and payable monthly.

DFA Global 80EQ-20FI Portfolio

Management Report of Fund Performance

As principal portfolio advisor, Dimensional is responsible for managing the investment portfolio of the Portfolio directly or through sub-advisors. Dimensional has retained its ultimate parent company, Dimensional U.S., to act as the Portfolio's sub-advisor. Dimensional U.S. is responsible for investment analysis and decision-making, implementing securities transactions, selecting broker-dealers, acquiring research information, voting proxies, and monitoring the Portfolio's investment guidelines. The fees of the sub-advisor are paid by Dimensional.

Dimensional has adopted written policies and procedures with respect to the supervision and monitoring of the services provided by Dimensional and Dimensional U.S. and received standing instructions from the Portfolio's IRC to act in accordance with these policies and procedures. These standing instructions require Dimensional to report to the IRC any material exceptions to compliance with these policies and procedures.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements as at December 31 of year shown.

⁽²⁾ Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

⁽³⁾ Distributions were paid in cash/reinvested in additional units of the Fund, or both.

⁽⁴⁾ This total revenue is net of withholding taxes.

Net asset value per unit (\$)	11.98	11.59	10.11	11.17	10.26

⁽¹⁾ This information is provided as at December 31 of the year shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average Net Asset Value during the period. The calculation of the management expense ratio includes the management expense ratios of the Underlying Funds held. Effective on June 24, 2020, the management fee for the Fund changed from 1.32% to 1.28% for Class A units and 0.32% to 0.28% for Class F units, and the calculation of management expense ratio reflects the new management fee for the Fund.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period. The calculation of the trading expense ratio includes the trading expense ratios of the Underlying Funds held.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

Management Report of Fund Performance

Management Fees

Dimensional receives management fees for its service as manager of the Fund. These fees are calculated as a percentage of the Net Asset Value of the Fund and are calculated daily and payable monthly. The table below shows the annual management fee rates for each class of units of the Fund.

Annual Rate	Class A	Class F	Class I
Management Fees*	1.28%	0.28%	0%

* On June 24, 2020, the management fee for each class of units of the Fund was changed from 1.32% for class A units and 0.32% for class F units to the rates listed above.

Dimensional pays a trailer fee to dealers out of the management fee received for Class A units of the Fund. This trailer fee is generally calculated as a percentage of the average daily Net Asset Value of Class A units of the Fund held by the dealer's clients or by the dealer on behalf of the clients. The maximum annual trailer fee for the Class A units of the Fund is 1.00%. The balance of the management fee is for the general management and administrative services provided to the Fund. The table below shows a breakdown of the services received by the Fund as a percentage of management fees.

	Class A	Class F	Class I
Management and Administrative Services	22%	100%	0%
Trailer Fees	78%	0%	0%
	100%	100%	0%

No management fees are charged to the Fund with respect to Class I units. Instead, each Class I investor pays a separate fee directly to the manager of the Fund.

Past Performance

The performance information shown assumes that all distributions made by the Fund during the periods shown were reinvested in additional units of the Fund. The performance information does not take into account any sales, redemption, distribution, or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's annual performance for each of the financial years shown, and how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have increased or decreased by the last day of that financial year.

DFA Global 80EQ-20FI Portfolio – Class A

* The information for 2012 is for the period from September 11, 2012 to December 31, 2012.

DFA Global 80EQ-20FI Portfolio – Class F

* The information for 2012 is for the period from September 10, 2012 to December 31, 2012.

DFA Global 80EQ-20FI Portfolio – Class I

Management Report of Fund Performance

Forward Looking Statements

In preparing this document, Dimensional is required to exercise some degree of prediction or projection. As a result, this document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. By their nature, these forward-looking statements require Dimensional to make assumptions and are subject to inherent risks and uncertainties. In particular, there is a risk that Dimensional's predictions and other forward-looking statements will not prove to be accurate. A number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates, or intentions expressed or implied in the forward-looking statements. These factors, among others, could include market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest, and the risks detailed from time to time in the Funds' simplified prospectus. For these reasons, it is important that readers do not place undue reliance on any forward-looking statements.
