

DFA Global 50EQ-50FI Portfolio

Management Report of Fund Performance

For the period ended June 30, 2023

The interim management report of fund performance contains financial highlights but does not contain either the interim financial statements or annual financial statements of the DFA Global 50EQ-50FI Portfolio (the “Fund” or “Portfolio”). You can get a copy of the interim financial statements or annual financial statements at your request, and at no cost, by calling Dimensional Fund Advisors Canada ULC (“Dimensional”) collect at 604-685-1633, by writing to Dimensional at 745 Thurlow Street, Suite 2110, Vancouver, BC, Canada, V6E 0C5 or by visiting Dimensional’s website at www.dimenstional.com/ca-en/funds or SEDAR+ at www.sedarplus.com.

Unitholders may also contact Dimensional using one of these methods to request a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

DFA Global 50EQ-50FI Portfolio

Management Report of Fund Performance

Results of Operations

To achieve its investment objective, the DFA Global 50EQ-50FI Portfolio invests in units of other funds managed and advised by Dimensional and our affiliates (the “Underlying Funds”), that invest in global equity securities and fixed income securities. As at June 30, 2023, the Underlying Funds collectively held approximately 12,540 equity securities and approximately 1,070 fixed income securities with exposure to 47 countries.

For the six-month period ended June 30, 2023, total returns were 4.37% for the Class F units, 3.80% for the Class A units, 4.50% for the Class I units, and 5.79% for the Portfolio’s blended benchmark (16% S&P/TSX Composite Index, 20% MSCI All Country World Index (net div., CAD), 12% MSCI All Country World Index (net div., hedged to CAD), 2% S&P Developed REIT Index (net div., CAD), 25% FTSE World Government Bond Index 1-5 Years (hedged to CAD), 25% Bloomberg Barclays Global Aggregate Bond Index (hedged to CAD)) (the “Benchmark”).

Each class of the Fund’s units underperformed the Benchmark. Relative to the Benchmark, the underperformance of each class of the Portfolio’s units was primarily due to the performance of the Portfolio’s equity Underlying Funds versus the respective equity components of the Benchmark, as the fixed income Underlying Funds outperformed their respective fixed income components of the Benchmark. The Underlying Funds’ emphasis on value stocks detracted from relative performance, as these stocks generally underperformed the overall Benchmark for the period. The Underlying Funds’ emphasis on stocks with smaller market capitalizations also detracted from relative performance, as these stocks generally underperformed the overall Benchmark for the period.

Credit spreads were relatively wide across global developed markets over the period, indicating larger expected credit premiums. As such, the Underlying Funds maintained their allocation to credit during the period. The Underlying Funds had a higher average relative weight to credit than the Benchmark. Realized credit premiums were positive for the period, as corporate bonds generally outperformed both government and securitized bonds. As a result, the Underlying Funds’ higher average relative weight to corporate bonds denominated in the euro and U.S. dollar, lower average relative weight to government bonds denominated in the U.S. dollar, and exclusion of securitized bonds, contributed positively to relative performance.

At the beginning of the period, eligible global developed market yield curves were generally upwardly sloped in the short-term segment and flat in the intermediate- to long-term segments. The Underlying Funds’ weighted average duration began the period at 3.46 years. During the period, eligible global developed market yield curves became generally flat to inverted in the short- to intermediate-term maturity segment, indicating smaller expected term premiums. As such, the Underlying Funds’ weighted average duration was shortened to 2.72 years by the end of the period. The blended Benchmark’s weighted average duration was 4.72 years at the end of the period. Bonds denominated in the Australian dollar, British

pound, Canadian dollar, and euro generally exhibited higher currency-hedged expected returns globally during the period. As a result, the Underlying Funds focused on bonds denominated in these currencies during the period.

Realized term premiums were positive across global developed markets for the period, as longer-term bonds generally outperformed their shorter-term counterparts. As a result, the Underlying Funds’ higher average relative weight to short- to intermediate-term bonds and exclusion of bonds with maturities longer than twenty-years detracted from relative performance.

Returns for the Benchmark are not diminished by management and administrative expenses associated with managing a portfolio of securities.

Net returns of Class A units were diminished by a trailer fee payable to securities dealers. Dealers generally pay a portion of these fees to investment professionals for services they provide to their clients.

Recent Developments

The economic outlook remains uncertain as a result of continuing economic pressures, including elevated inflation and rising interest rates. These factors are expected to impact domestic and international equity markets and fixed income yields during 2023. Dimensional will continue to monitor these developments in connection with the Fund.

Related-Party Transactions

Dimensional is the manager, trustee, and principal portfolio advisor of the Portfolio. As manager, Dimensional is responsible for the overall management and administration of the Portfolio. As trustee, Dimensional holds legal title to the Portfolio’s investments in trust for the Portfolio’s unitholders. For its services, Dimensional receives management fees that are calculated as a percentage of the average Net Asset Value of the Portfolio. These fees are calculated daily and payable monthly.

As principal portfolio advisor, Dimensional is responsible for managing the investment portfolio of the Portfolio directly or through sub-advisors. Dimensional has retained its ultimate parent company, Dimensional Fund Advisors LP (“Dimensional U.S.”), to act as the Portfolio’s sub-advisor. Dimensional U.S. is responsible for investment analysis and decision-making, implementing securities transactions, selecting broker-dealers, acquiring research information, voting proxies, and monitoring the Portfolio’s investment guidelines. The fees of the sub-advisor are paid by Dimensional.

Dimensional has adopted written policies and procedures with respect to the supervision and monitoring of the services provided by Dimensional and Dimensional U.S. and received standing instructions from the Portfolio’s Independent Review Committee (“IRC”) to act in accordance with these policies and procedures. These standing instructions require Dimensional to report to the IRC any material exceptions to compliance with these policies and procedures.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements and the Fund's unaudited semi-annual financial statements.

⁽²⁾ Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

⁽³⁾ Distributions were paid in cash/reinvested in additional units of the Fund, or both.

⁽⁴⁾ This total revenue is net of withholding taxes.

⁽⁵⁾ Class I units of the Fund were first issued on April 9, 2021.

Portfolio turnover rate ⁽⁴⁾	1.40%	7.03%	4.35%			
Net asset value per unit (\$)	9.62	9.32	10.38			

⁽¹⁾ This information is derived from the Fund's audited annual financial statements and the Fund's unaudited semi-annual financial statements.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period. The calculation of the management expense ratio includes the management expense ratios of the Underlying Funds held. Effective on July 1, 2023, the management fee for the Fund changed from 1.23% to 1.22% for Class A units and 0.23% to 0.22% for Class F units.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period. The calculation of the trading expense ratio includes the trading expense ratios of the Underlying Funds held.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

⁽⁶⁾ Class I units of the Fund were first issued on April 9, 2021.

Management Report of Fund Performance

Management Fees

Dimensional receives management fees for its service as manager of the Fund. These fees are calculated as a percentage of the Net Asset Value of the Fund and are calculated daily and payable monthly. The table below shows the annual management fee rates for each class of units of the Fund.

Annual Rate	Class A	Class F	Class I
Management Fees	1.23%	0.23%	0%

Dimensional pays a trailer fee to dealers out of the management fee received for Class A units of the Fund. This trailer fee is generally calculated as a percentage of the average daily Net Asset Value of Class A units of the Fund held by the dealer's clients or by the dealer on behalf of the clients. The maximum annual trailer fee for the Class A units of the Fund is 1.00%. The balance of the management fees is for the general management and administrative services provided to the Fund. The table below shows a breakdown of the services received by the Fund as a percentage of management fees.

	Class A	Class F	Class I
Management and Administrative Services	19%	100%	0%
Trailer Fees	81%	0%	0%
	100%	100%	0%

No management fees are charged to the Fund with respect to Class I units. Instead, each Class I investor pays a separate fee directly to the manager of the Fund.

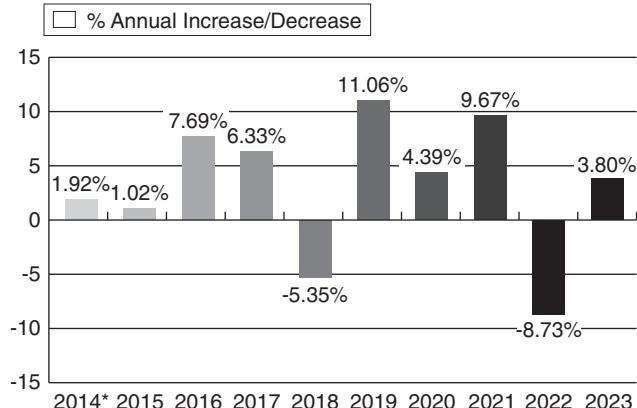

Past Performance

The performance information shown assumes that all distributions made by the Fund during the periods shown were reinvested in additional units of the Fund. The performance information does not take into account any sales, redemption, distribution, or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

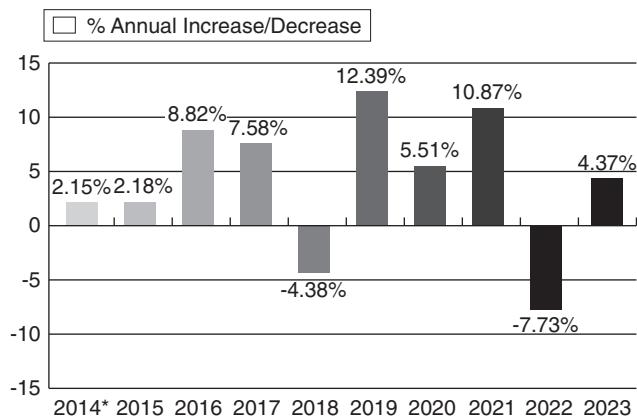

The bar charts show the Fund's annual performance for each of the financial years shown, and how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have increased or decreased by the last day of that financial year or interim period.
