Results of Operations

The Fund was essentially fully invested in fixed income securities during the year. In general, cash exposure was low throughout the year with an average cash balance of less than 1% of the Fund's Net Asset Value. The Fund uses a variable maturity strategy that identifies a maturity range with favorable risk-adjusted expected returns. For the period, the Fund generally invested in securities with maturities at the longer end of the eligible range. The average maturity of the Fund decreased to 3.76 years on June 30, 2016, from 3.77 years on December 31, 2015.

Bonds denominated in U.S. Dollars decreased to 73.4% on June 30, 2016, from 75.6% on December 31, 2015. Bonds denominated in British Pounds increased to 24.1% from 20.2%. Bonds denominated in Singapore Dollars decreased to 1.1% from 4.0%. Bonds denominated in Swedish Krona increased to 1.5% from 0.2%.

For the six months ended June 30, 2016, total returns were 2.95% for the Class A units, 3.52% for the Class F units, 3.59% for the Class I units, and 1.85% for the Citi World Government Bond Index, 1-5 Years (CAD hedged) (the "Index").

Each class of the Fund's units outperformed the Index during the period. Relative to the Index, the Fund had significantly higher weight in 3-5 year U.S. dollar-denominated bonds and British pound-denominated bonds. These bonds outperformed, and these bonds primarily contributed to the Fund's outperformance.

All returns for the Index are not diminished by management and administrative expenses associated with managing a portfolio of securities.

Net returns of Class A units were diminished by a trailer fee payable to securities dealers. Dealers generally pay a portion of these fees to investment professionals for services they provide to their clients.

Recent Developments

Dimensional will continue to pursue a disciplined quantitative approach to identify securities for purchase or sale. In contrast to many investment firms, Dimensional does not seek to predict the future course of business conditions or interest rates.

Dimensional believes that securities markets are highly competitive and prices reflect information quickly enough that efforts to outperform the market ordinarily promise little or no payoff after taking account of research and transaction costs. Dimensional seeks to capture a market rate of return associated with various broad risk factors while reducing company or industry risk through diversification.

Related-Party Transactions

Dimensional is the manager, trustee, and principal portfolio advisor of the Fund. As manager, Dimensional is responsible for the overall management and administration of the Fund. As trustee, Dimensional holds legal title to the Fund's investments in trust for the Fund's unitholders. For its services, Dimensional receives management fees that are calculated as a percentage of the average Net Asset Value of the Fund. These fees are calculated daily and payable monthly.

As principal portfolio advisor, Dimensional is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. Dimensional has retained its ultimate parent company, that Dimensional Fund Advisors LP ("Dimensional U.S."), to act as the Fund's sub-advisor. Dimensional U.S. is responsible for investment analysis and decision making, implementing securities transactions, selecting broker-dealers, acquiring research information, voting proxies, and monitoring the Fund's investment guidelines. Dimensional has also engaged another of its affiliates, DFA Australia Limited ("DFAA") as sub-advisor to the Fund. The fees of the sub-advisors are paid by Dimensional.

Dimensional has adopted written policies and procedures with respect to the supervision and monitoring of the services provided by Dimensional, Dimensional U.S. and DFAA, and received standing instructions from the Fund's Independent Review Committee ("IRC") to act in accordance with these policies and procedures. These standing instructions require Dimensional to report to the IRC any material exceptions to compliance with these policies and procedures.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements and the Fund's unaudited semi-annual financial statements. For the financial years beginning on or after January 1, 2014, the financial highlights were derived from the Fund's financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"). For the financial year ended December 31, 2013, the financial highlights were restated to comply with IFRS reporting. For financial years beginning before January 1, 2013, the financial highlights were derived from the Fund's financial statements prepared in accordance with Canadian GAAP. For financial years beginning on or after January 1, 2013, all references to "Net Assets" or "Net Assets per Unit" in the financial highlights are references to net assets attributable to holders of redeemable units determined in accordance with IFRS as presented in the financial statements of the Fund.

⁽²⁾ Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

⁽³⁾ Distributions were paid in cash/reinvested in additional units of the Fund, or both.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

Management Fees

Dimensional receives a management fee for its service as Manager of the Fund. These fees are calculated as a percentage of the Net Asset Value of the Fund and is calculated daily and payable monthly. The table below shows the annual management fee rates for each class of units of the Fund.

Annual Rate	Class A	Class F	Class I
Management fees	1.25%	0.25%	0%

Dimensional pays a trailer fee to dealers out of the management fee received for Class A units of the Fund. This trailer fee is generally calculated as a percentage of the average daily Net Asset Value of Class A units of the Fund held by the dealer's clients or by the dealer on behalf of the clients. The maximum annual trailer fee for the Class A units of the Fund is 1.00%. The balance of the management fees are for the general management and administrative services provided to the Fund. The table below shows a breakdown of the services received by the Fund as a percentage of management fees.

	Class A	Class F	Class I
Management and administrative services	20%	100%	0%
Trailer fees	80%	0%	0%
	100%	100%	0%

No management fees are charged to the Fund with respect to Class I units. Instead, each Class I investor pays a separate fee directly to the manager of the Fund.

Past Performance

The performance information shown assumes that all distributions made by the Fund during the periods shown were reinvested in additional units of the Fund. The performance information does not take into account any sales, redemption, distribution, or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's annual performance for each of the financial years shown, and how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have increased or decreased by the last day of that financial year, or as the case may be, of the interim period.
