
DFA Five-Year Global Fixed Income Fund

Management Report of Fund Performance

For the year ended December 31, 2016

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the DFA Five-Year Global Fixed Income Fund (the “Fund” or “Portfolio”). You can get a copy of the annual financial statements at your request, and at no cost, by calling Dimensional Fund Advisors Canada ULC (“Dimensional”) collect at 604-685-1633, by writing to Dimensional at 745 Thurlow Street, Suite 2110, Vancouver, BC, Canada, V6E 0C5 or by visiting Dimensional’s website at www.ca.dimensional.com or SEDAR at www.sedar.com.

Unitholders may also contact Dimensional using one of these methods to request a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

DFA Five-Year Global Fixed Income Fund

Management Report of Fund Performance

Investment Objective and Strategies

The DFA Five-Year Global Fixed Income Fund pursues a market rate of return for a global fixed income portfolio with a relatively low volatility of returns.

The Fund will generally purchase high-quality fixed income securities issued or guaranteed by the Canadian government, Canadian issuers, foreign governments, their agencies and instrumentalities, other foreign issuers, and supranational organizations. The Fund will generally invest in fixed income instruments maturing in five years or less. The investment strategy shifts maturities based on changes in the yield curve in various global fixed income markets. Points on the curve offering the highest expected return are identified as potential areas of investment.

Risk

There were no material changes to the Fund over the course of the year affecting the overall risk exposure. The Fund will continue to be exposed to global interest rate risk, and the pattern of returns may differ significantly from conventional benchmarks, such as the Citi World Government Bond Index 1-5 Years (hedged to CAD).

The Fund engaged in securities lending transactions and, as a result, is exposed to securities lending risk. Securities lending risk includes the risk that the value of collateral held by the Fund may be insufficient to fully replace loaned securities and the risk of defaults on the obligations to return the securities to the Fund. These risks may make an investment in the Fund riskier than if the Fund did not lend securities. Investors are encouraged to read the description of securities lending risk contained in the simplified prospectus. The Fund will also continue to be exposed to the other risks described in the Fund's simplified prospectus.

Results of Operations

In general, cash exposure throughout the period was less than 1% of the Fund's Net Asset Value. The Fund uses a variable maturity strategy that seeks to identify a maturity range with favorable risk-adjusted expected returns. When eligible yield curves are flat or inverted, short-term securities potentially offer the most opportunity on a risk-adjusted basis. When eligible yield curves are upwardly sloped, maturities may be lengthened to achieve higher expected returns associated with longer maturities. For the period, the Fund continued to be invested in securities with maturities at the longer end of the eligible range. The average maturity of the Fund decreased to 3.57 years on December 31, 2016, from 3.77 years on December 31, 2015.

The Fund's bonds denominated in U.S. Dollars decreased to 74.9% on December 31, 2016, from 75.6% on December 31, 2015. Bonds denominated in British Pounds decreased to 18.7% from 20.2%. Bonds denominated in Singapore Dollars decreased to 3.4% from 4.0%. Bonds denominated in Swedish Krona increased to 2.2% from 0.2%. The Fund added a 0.9% holding in bonds denominated in Canadian Dollars.

For the 12 months ended December 31, 2016, total returns were 1.13% for the Class A units, 2.30% for the Class F units, 2.55% for the Class I units, and 1.34% for the Citi World Government Bond Index 1-5 Years (hedged to CAD) (the "Index"). U.S. dollar- and British pound-denominated bonds

offered the highest expected returns due in part to the shape of their yield curves. Because of this, the Fund maintained a larger exposure than the Index to those markets. This positioning contributed to outperformance by the Fund's Class F and Class I units as UK bonds and US bonds both outperformed the overall Index. After the deduction of fees and expenses, the Fund's Class A units underperformed the Index.

All returns for the Index are not diminished by management and administrative expenses associated with managing a portfolio of securities.

Net returns of Class A units were diminished by a trailer fee payable to securities dealers. Dealers generally pay a portion of these fees to investment professionals for services they provide to their clients.

Recent Developments

Dimensional will continue to pursue a disciplined quantitative approach to identify securities for purchase or sale. In contrast to many investment firms, Dimensional does not seek to predict the future course of business conditions or interest rates. Dimensional believes that securities markets are highly competitive and prices reflect information quickly enough that efforts to outperform the market ordinarily promise little or no payoff after taking account of research and transaction costs. Instead, Dimensional seeks to capture a market rate of return associated with various broad risk factors while reducing company or industry risk through diversification.

Related-Party Transactions

Dimensional is the manager, trustee, and principal portfolio advisor of the Fund. As manager, Dimensional is responsible for the overall management and administration of the Fund. As trustee, Dimensional holds legal title to the Fund's investments in trust for the Fund's unitholders. For its services, Dimensional receives management fees that are calculated as a percentage of the average Net Asset Value of the Fund. These fees are calculated daily and payable monthly.

As principal portfolio advisor, Dimensional is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. Dimensional has retained its ultimate parent company, that Dimensional Fund Advisors LP ("Dimensional U.S."), to act as the Fund's sub-advisor. Dimensional U.S. is responsible for investment analysis and decision making, implementing securities transactions, selecting broker-dealers, acquiring research information, voting proxies, and monitoring the Fund's investment guidelines. Dimensional has also engaged another of its affiliates, DFA Australia Limited ("DFAA") as sub-advisor to the Fund. The fees of the sub-advisors are paid by Dimensional.

Dimensional has adopted written policies and procedures with respect to the supervision and monitoring of the services provided by Dimensional, Dimensional U.S. and DFAA, and received standing instructions from the Fund's Independent Review Committee ("IRC") to act in accordance with these policies and procedures. These standing instructions require Dimensional to report to the IRC any material exceptions to compliance with these policies and procedures.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements. For the financial years beginning on or after January 1, 2014, the financial highlights were derived from the Fund's financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"). For the financial year ended December 31, 2013, the financial highlights were restated to comply with IFRS reporting. For financial years beginning before January 1, 2013, the financial highlights were derived from the Fund's financial statements prepared in accordance with Canadian GAAP. For financial years beginning on or after January 1, 2013, all references to "Net Assets" or "Net Assets per Unit" in the financial highlights are references to net assets attributable to holders of redeemable units determined in accordance with IFRS as presented in the financial statements of the Fund.

⁽²⁾ Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial year.

⁽³⁾ Distributions were paid in cash/reinvested in additional units of the Fund, or both.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average Net Asset Value during the year.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the year.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

DFA Five-Year Global Fixed Income Fund

Management Report of Fund Performance

Management Fees

Dimensional receives a management fee for its service as manager of the Fund. These fees are calculated as a percentage of the Net Asset Value of the Fund and is calculated daily and payable monthly. The table below shows the annual management fee rates for each class of units of the Fund.

Annual Rate	Class A	Class F	Class I
Management Fees	1.25%	0.25%	0%

Dimensional pays a trailer fee to dealers out of the management fee received for Class A units of the Fund. This trailer fee is generally calculated as a percentage of the average daily Net Asset Value of Class A units of the Fund held by the dealer's clients or by the dealer on behalf of the clients. The maximum annual trailer fee for the Class A units of the Fund is 1.00%. The balance of the management fees are for the general management and administrative services provided to the Fund. The table below shows a breakdown of the services received by the Fund as a percentage of management fees.

	Class A	Class F	Class I
Management and Administrative Services	20%	100%	0%
Trailer Fees	80%	0%	0%
	100%	100%	0%

No management fees are charged to the Fund with respect to Class I units. Instead, each Class I investor pays a separate fee directly to the manager of the Fund.

Past Performance

The performance information shown assumes that all distributions made by the Fund during the periods shown were reinvested in additional units of the Fund. The performance information does not take into account any sales, redemption, distribution, or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's annual performance for each of the financial years shown, and how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial year would have increased or decreased by the last day of that financial year.

Annual Compound Returns

The following table compares the Fund's historical annual compound total returns for the periods shown ending on December 31, 2016. The historical annual compound total returns are also compared to the Index.

Index returns are calculated in Canadian Dollars on a total return basis; that is, all distributions are reinvested. The Index is a broad measure of the total return of Canadian bonds that have maturities between 1 and 5 years. Results for the Index are not diminished by management fees, administrative expenses, or taxes associated with managing a portfolio of securities.

Percentage Return:

	1-Year	3-Year	5-Year	10-Year
DFA Five-Year Global Fixed Income Fund – Class A	1.13%	1.44%	1.46%	2.45%

Management Report of Fund Performance

All holdings in the Fund are long positions.

The Fund's investment portfolio may change due to the Fund's ongoing portfolio transactions. Quarterly updates are available within 60 days of each quarter end where an annual or interim report is not published by visiting www.ca.dimensionalfund.com or by calling Dimensional collect at 604-685-1633 or by writing to Dimensional at 745 Thurlow Street, Suite 2110, Vancouver, BC, Canada, V6E 0C5.

Forward Looking Statements

In preparing this document, Dimensional is required to exercise some degree of prediction or projection. As a result, this document may contain forward-looking statements relating to anticipated future events, results, performance, decisions, circumstances, opportunities, risks or other matters. By their nature, these forward-looking statements require Dimensional to make assumptions and are subject to inherent risks and uncertainties. In particular, there is a risk that Dimensional's predictions and other forward-looking statements will not prove to be accurate. A number of factors could cause actual events, results, performance, etc. to differ materially from the targets, expectations, estimates, or intentions expressed or implied in the forward-looking statements. These factors could, among others, include market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business area in which the Fund may invest, and the risks detailed from time to time in the Fund's simplified prospectus. For these reasons, it is important that readers do not place undue reliance on any forward-looking statements.
